County Commissioners
State of Kansas

Dear County Commissioners:

Associated General Contractors (AGC) of Kansas, *“The Chamber of Commerce for the Kansas Construction Industry”*, would like to thank you for your tireless work and leadership during these challenging times associated with the COVID-19 crisis.

Because AGC is recognized as the **“Voice for the Construction Industry”** across the country, we were afforded the opportunity to have our CEO (Steve Sandherr) appointed by President Trump to his Presidential Task Force to re-open America.

With this in mind, as your County Commission begins to develop local plans to re-open your region AGC of Kansas stands ready to assist you in any planning for moving your County Forward.

Attached please find the recommendations and guidelines that we distributed to the Kansas construction industry during Governor Kelly’s Executive Order to shelter in place. We also provided this same information to Governor Kelly’s staff. **These guidelines were successful in keeping our workers safe and to date our industry has experienced no major incidents.**

Thank you so much for your leadership and your tireless dedication to the citizens of Kansas. AGC of Kansas and our construction professionals continue to stand with you in working towards the recovery efforts of our great state. Please reach out to me or our legislative consultant, Scott Schneider to discuss how we can assist.

Sincerely,

Mike Gibson
Executive Vice President

Cc: Scott Schneider, AGC of Kansas Legislative Consultant
