Approval Grants Portal Accounts and Requests for Public Assistance

Public Assistance Recipient Quick Guide

This Quick Guide explains the steps a Recipient must take to assist Applicants in creating Public Assistance Grants Portal user accounts and submitting Requests for Public Assistance (RPA). RPAs submitted by Applicants will follow standard review processes by the Recipient and FEMA. The Recipient will be able to view RPA status’ in Grants Portal.

FEMA uses the term Recipient and Applicant throughout this document. In Grants Portal, Recipients are identified as Grantees and Applicant are identified as Subrecipients.

In Grants Portal, go to the Subrecipients tab
Select Organization Profiles
- On the right side of the screen, click the drop down on “New Organization” and select “Add”.

- Submit the form using the wizard, completing all required information.

- **Creating Accounts and Submitting RPAs on Behalf of Multiple Applicants**
Recipients can use the bulk RPA import functionality to create accounts and submit RPAs on an Applicant’s behalf in one bulk action.
Request the following information from Applicants:

- Primary/Alternate Contact (Name, Title, Phone, Email)
- Physical/Mailing (Address, City, State, Zip)

To access the RPA template, Log into your Recipient account in Grants Portal.

On the dashboard, open Utilities and then RPA Import.

Then click the blue “Download Template” box. This will download an Excel template.

For each Applicant, enter the information provided by them into a row in the template without changing the formatting in the template (font type or size or column names).

When all of the information is entered, save the document in Excel and then save it as a Comma Separated Value (CSV) file.

Information must be complete and formatted exactly as the template indicates. Use the template below for submission.

Return to Grants Portal and import the file on the same page that you initially downloaded the template.

When asked for the file be sure to attach the .csv version and upload the document.
